TYPE 422PW AND 433PW SERIES

When you need a durable trimming potentiometer, these 19mm rectilinear styles offer quality performance at a competitive price. They feature a cermet element for stability and resolution and are available in two formats.

Type 422PW has a transparent plastic case so the wiper position may be clearly seen.

Type has an opaque plastic case. Either will withstand all recognised board washing solvents. Both styles can be offered with panel mount for external adjustment.
